

ARPAN NYATI

Full Stack Software Developer | Web Application Specialist

work.arpannyati@gmail.com | +91-9521416660 | [Personal Website](#) | Bengaluru, IN

Professional Summary

Results-driven **Full Stack Developer** with **2+ years** of end-to-end web application development experience in **product, consulting** and **services** organizations. Proven expertise in building **high-performance, scalable web applications** using modern tech stacks including **Python (FastAPI), React, Angular and TypeScript**. Strong background in collaborating with **cross-functional teams**, gathering **business requirements**, and delivering **enterprise-grade solutions**.

Technical Skills

Core Technologies

- **Programming Languages:** Python, Typescript, Javascript, Java
- **Cloud:** AWS, Azure, GCP
- **Backend:** Python (FastAPI), RESTful APIs, Microservices Architecture
- **Frontend:** React, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, TailwindCSS
- **Database:** PostgreSQL, SQL optimization, NoSQL (MongoDB)
- **UI/UX:** Material UI, PrimeNG, Responsive Design, Component Libraries

Development & DevOps

- **Version Control:** Git, GitHub/GitLab
- **Testing:** Unit Testing (Jest, Pytest), Integration Testing, TDD
- **CI/CD:** Jenkins, GitHub Actions, Docker, Kubernetes
- **Cloud Platforms:** Azure, AWS, GCP deployment and architecture
- **Tools:** Unix/Linux command line, Jupyter Notebook, Docker containerization

Additional Skills

- **Visualization:** Recharts, HighCharts
- **Design:** Wireframing, High-fidelity design implementation
- **Methodologies:** Agile, Scrum, DevOps best practices

Professional Experience

Full Stack Developer | *Ernst & Young LLP* | August 2023 - Present

- **Client-Focused Development:** Collaborated with consulting teams to gather requirements and deliver **custom web applications** for client projects, resulting in improved **operational efficiency**.
- **End-to-End Solution Delivery:** Architected and developed **scalable web applications** using **Python (FastAPI) and React**.
- **Technical Leadership:** **Mentored 3 junior developers** on advanced software concepts, conducted **code reviews**, and established **development best practices**.
- **Stakeholder Management:** Presented **technical solutions** to **senior management** and consulting teams, translating complex technical concepts into **business value propositions**.
- **Performance Optimization:** Resolved **15+ critical frontend bugs** in **Angular** applications, resulting in reduction in user-reported issues.
- **Performance Testing:** Conducted comprehensive **load and stress testing** using **Taurus and JMeter** frameworks, simulating **2000+ concurrent users** and generating detailed **performance reports** for senior management to make informed scaling and infrastructure decisions.
- **Rapid Prototyping:** Built **3+ proof-of-concepts** and MVPs using **React, TypeScript, and FastAPI**, accelerating stakeholder decision-making.
- **API Integration:** Developed and integrated **REST APIs in Node.js and FastAPI** with **responsive React and Angular frontends**, ensuring seamless data flow and user experience.
- **Quality Assurance:** Implemented comprehensive **testing frameworks** achieving **90+ code coverage** across all projects.
- **Cross-functional Collaboration:** Worked with **UX designers** and **product managers** to deliver pixel-perfect, **high-fidelity web applications**.
- **DevOps Implementation:** Set up **CI/CD pipelines** integrating **SonarQube, Trivy** using **Gitlab, Jenkins** and **Docker** reducing deployment time.

Web Developer Intern | *Wipro* | 2022

- **Full-Stack Development:** Developed **responsive web applications** using **React, Node.js**, and **MongoDB**. Collaborated on **end-to-end feature development** from database design to user interface implementation.
- **Code Quality:** Maintained **clean, well-documented code** following **OOP principles** and **design patterns**.
- **Learning & Growth:** Continuously updated knowledge of **emerging technologies** and contributed to team **knowledge sharing sessions**.
- **Collaboration & Business Impact:** Worked in **Agile environment** collaborating with senior developers on **requirements gathering** and **technical specifications**, participated in **code reviews** and **sprint planning**, presented **technical solutions** to stakeholders along with documenting solutions and **mentoring fellow interns**.

Key Projects

Cyber Security Asset Management (Proprietary Product)

- **Technology Stack:** Angular, TypeScript, Node.js, Python FastAPI, PostgreSQL, REST APIs
- **Impact:** Developed comprehensive **cybersecurity asset management** platform providing **real-time vulnerability assessment**, **CVE tracking**, and **automated asset scanning capabilities**, enabling organizations to **reduce security risk exposure** and **accelerate threat response time**.
- **Key Features:** Automated **vulnerability scanning engine**, interactive **CVE timeline dashboards with visualizations**, **real-time asset discovery and inventory management**, risk scoring algorithms, role-based access control, and **automated compliance reporting** with exportable analytics.
- **Technical Excellence:** Implemented **efficient database schemas** for handling asset records, built **scalable microservices architecture**, integrated with multiple **vulnerability databases (NVD, MITRE)**, and developed custom APIs for third-party security tool integration.
- **Methodology:** Agile development with **bi-weekly client demos**, **iterative feedback incorporation**, and **continuous deployment pipeline** ensuring **99.9% uptime** for mission-critical security operations.

Compliance Assessment Web Application (Proprietary Product)

- **Technology Stack:** Angular, Python FastAPI, MongoDB, Node.js REST API.
- **Impact:** Developed **enterprise-grade compliance assessment platform** supporting **SAMM, NIST, SLSA, and CSCRf frameworks**, enabling organizations to evaluate **security maturity** and receive **actionable recommendations** for risk mitigation.
- **Key Features:** **Interactive assessment questionnaires** based on compliance controls, **automated maturity scoring algorithms**, comprehensive **reporting dashboard with visual analytics** and **personalized recommendation engine** for compliance gap remediation.
- **Business Value:** Streamlined **compliance evaluation process** reducing **assessment time**, provided **data-driven insights** for **C-level security decisions**, and enabled **continuous monitoring** of security posture across multiple regulatory frameworks.

Custom Chatbot (Pharmaceutical Client)

- **Technology Stack:** React, Python FastAPI, HTML5, CSS3, REST API Integration.
- **Impact:** Developed **custom chatbot solution** for client's **internal data analytics**, enabling **natural language queries** for business insights and improving **data accessibility**.
- **Key Features:** **Responsive design** across all devices, **persistent chat history**, **real-time message rendering**, seamless **API integration with FastAPI backend**, and **intuitive conversation interface** for non-technical users.

Education

Bachelor of Technology in Electrical Engineering | JECRC | 2018-2022

- **Relevant Coursework:** Software Engineering, Database Systems, Web Technologies, Algorithms & Data Structures, Object-Oriented Programming, Software Design Patterns, Database Management Systems

Certifications

- Azure Fundamentals AZ-900

Professional Attributes

- **Business Acumen:** Strong understanding of **consulting methodologies** and **client value delivery**.
- **Communication:** Excellent **written and verbal communication skills**, experienced in **client-facing roles**.
- **Problem Solving:** Proven ability to break down **complex problems** and deliver **scalable solutions**.
- **Leadership:** Experience **mentoring junior developers** and leading **technical initiatives**.
- **Adaptability:** **Quick learner** with ability to rapidly adopt **new technologies** and methodologies.
- **Quality Focus:** Commitment to **code quality**, **security best practices**, and **thorough testing**.

Additional Information

- **Languages:** English
- **Willing to Travel:** Yes, for client engagements and project requirements.
